Primary Care for Small Businesses

100 Arrandale Blvd, Suite 101

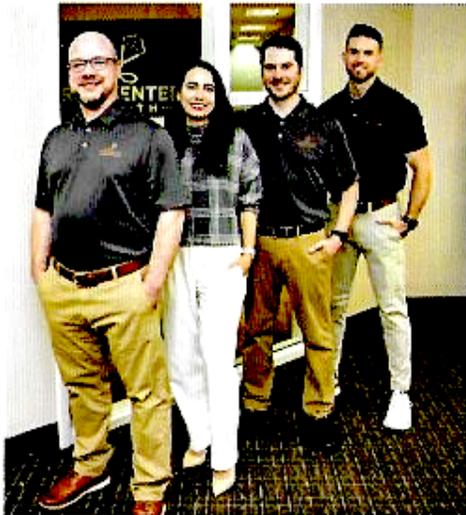

Exton, PA 19341

## About

Reinvented Health is a Direct Primary Care (DPC) and Sports Medicine office that was founded in 2022 by Dr. Mark LaSorda.

Under the DPC model, you receive comprehensive primary health care directly from your DPC physician. The patient or employer pays for this care through a monthly fee, paid directly to Reinvented Health. We do not bill insurance or collect copays for visits with our doctors. Because of our ability to offer cash pay ancillary services, DPC pairs well with high-deductible insurance plans or for those with no health insurance. Patients can utilize their health insurance for medications, labs, or imaging their doctor orders, if they prefer, as well as specialist and hospital care.

## Our Team

Michael Welsh, DO | Gea Mazzuca, DO | Mark LaSorda, DO | Mark Lewis, LAT

Dr. Welsh is board certified in Family Medicine. Dr. Mazzuca is board certified in Internal Medicine. Dr. LaSorda holds dual board certifications in Internal Medicine and Sports Medicine. Our physicians are on staff at Chester County Hospital. Mark Lewis is a Licensed Athletic Trainer with various additional certifications.

## Our Services

**Direct Primary Care (DPC):** \$100/month per employee\* (usual cost \$125/month for individuals)  
Membership includes primary health care services with Dr. LaSorda, Dr. Mazzuca, or Dr. Welsh.

- Yearly routine lab testing\*\*.
- Same or next business day appointments.
- No copays.
- Extended visit time (1 to 1 ½ hour appointments).
- No to minimal wait time.
- Access to discounted medications and additional labs.

## Sports Medicine/Orthopedic Rehab

Available for an additional fee

## Reinvented Health for Small Businesses

### -Comprehensive Primary Care:

Concierge-level of services include preventive care, chronic disease management, and direct access to our doctors for acute/sick/urgent matters. Additionally, employer DPC membership includes routine yearly labs\*\* for each employee member.

### -Cost-Effective Options:

Our DPC membership can be offered to employees as a standalone benefit or alongside your health plan and has the potential to save companies 20-40% of their annual employee health expenses by eliminating/reducing claims for in-office visits, labs, medications, etc. One fixed monthly fee gets your employees unlimited access to a physician with no visit fees, no co-pays, and no deductibles. Additionally, many medications and advanced lab testing are available at a deeply discounted cash price through our office.

prices reflected are true at the time of printing and are subject to change.

\*\*included labs subject to change.

*We believe in the importance of a trusting patient-physician relationship that values mutual respect.  
We strive to achieve this through quality, accessibility and price transparency.*
